|                             | Raul Jimenez               | Knee Injury           | July 27: "He stretched for the ball and felt something in his knee and his groin. Scans reveal that he has suffered a MCL and a minor strain of his adductor. Neither injury is very serious, but he is expected to be out for a number of weeks."                                         | 31/08/2022     | None                     | Ruled Out |
|                             | Adama Traore Diarra        | Thigh Injury          | July 27: "Adama has a small hamstring injury picked up before the team travelled to Spain but is progressing well."                                                                                                                                                                        | 13/08/2022     | Currently Being Assessed | 50%       |
|                             | Nelson Semedo              | Thigh Injury          | July 27: "Nelson is also doing very well in his recovery from the hamstring injury he sustained on 30th April. He should be back training with the squad after we return from Portugal."                                                                                                   | 13/08/2022     | None                     | 25%       |
|                             | Joao Filipe Moutinho       | Ankle/Foot Injury     | Aug 06: "It was a strange injury because he tried to shoot and twisted his left foot in the last training. Sometimes it is a problem for 1, 2 or 3 days and now we have to try to see how we can improve. I don't think it's a hard injury but let's see how much time he has to recover." | 13/08/2022     | Currently Being Assessed | 25%       |
